Acord	Jerry	1997	Churchwell	Fast Gas in High Mass Star Forming Regions	Industry, Newark, NJ
Afflerbach	Andrew	1996	Churchwell	Galactic Abundances From Ultracompact HII Regions	Vice CEO, Columbia Telecommunications Corp, Columbia, MD
Bethell	Thomas	2006	Zweibel	Radiative Transfer Through Inhomogeneous Molecular Clouds and Its Implications	Postdoctoral Fellow, University of Michigan
Casey	Brian	1996	Mathieu	The Pre-Main Sequence Binary TY CrA	Imagiware, Inc, Madison, WI
Cohen	David H.	1996	Cassinelli	High Energy Emission From B Stars and Its Relation to Stellar Winds	Faculty, Swarthmore College, Swarthmore, PA
Cole	Andrew	1999	Gallagher	Helium-Burning Stars and the Star Formation Histories of Dwarf Galaxies	Senior Postdoc Research Fellow, Groningen University, The Netherlands
Conselice	Christopher	2001	Gallagher	The Origin, Evolution, and Classification of Field and Cluster Galaxy Populations	NSF Postdoc Fellow, Caltech
Cox	Andrea	1996	Sparke	Neutral Hydrogen and Radio Continuum Emission in Polar-Ring Galaxies	Private Industry, Madison, WI
Crawford	Steven	2006	Bershady	The Distribution of Star-Forming Galaxies in Intermediate Redshift Galaxy Clusters	Postdoc, University of Cape Town, South Africa
Dolan	Christopher	2000	Mathieu	The Young Population of the Lambda Orionis Star-Forming Region	Clotho Internet Consulting, Madison, WI
Erwin	Henry Peter	2000	Sparke	Non-axisymmetric Dynamics in Binaries and the Centers of Galaxies	Postdoc, Instituto de Astrofisica de Canarias, Spain
Esquivel-Salazar	Jose Alejandro	2005	Lazarian	Statistics and Consequences of Interstellar Turbulence	Postdoc, UNAM
Falson	Michael	1999	Churchwell	VLBA Imaging of Small Scale Structure in the Cold Neutral Interstellar Medium	Faculty, Reed College, Oregon
Fox	Andrew	2005	Savage	Origins of the Highly Ionized Gas in the Vicinity of the Galaxy	North Carolina? Postdoc
Gibson	Steven	1997	Nordsieck	Gas and Dust in the Pleiades Refraction Nebula	Postdoc, University of Calgary, Alberta (Canada)
Gomez-Reyes	Gilberto	2003	Cox	Three-Dimensional Magnetohydrodynamic Modeling of the Gaseous Structure of the Galaxy	Postdoc, University of Maryland
Haffner	L. Matt	1999	Reynolds	The Warm Ionized Medium: Distribution, Kinematics, and Physical Conditions	Associate Scientist, University of Wisconsin-Madison
Hoffman	Jennifer	2002	Nordsieck	Locating Mass Loss: Numerical Modeling of Circumstellar Material in Binary Systems	NSF Postdoctoral Fellow, University of California-Berkeley
Homeier	Nicole	2003	Gallagher	Behind Closed Curtains: The Hidden Population of Massive Stars in the Milky Way	Towers Perrin-Tillinghast, Boston, MA (property & casualty actuarial consulting)
Hovk	Jay Christopher	1999	Savage	Extraplanar Dust in Nearby Edge-On Spiral Galaxies	Postdoc, University of California-San Diego
Ignace	Richard	1996	Cassinelli	Theoretical and Observational Consequences of Stellar Rotation and Magnetic Fields in Stellar Winds	Assistant Professor, East Tennessee State University
Jensen	Eric	1996	Mathieu	Observations of Disks Around Pre-Main Sequence Binary Stars	Faculty, Swarthmore College, Swarthmore, PA
Maciejewski	Witold	1998	Sparke	Particle Orbits and Gas Flows in Doubly Barred Galaxies	Postdoc, Arcetri Obs, Florence, Italy
Madsen	Gregory	2004	Reynolds	An Exploration of the Heterogeneous Nature of the Warm Ionized Medium in the Galaxy	Assistant Scientist, Anglo-Australian Observatory
Meibom	Soeren	2005	Mathieu	An Observational Exploration of the Evolution of Angular Momentum in Close Detached Binary and Single Stars of Solar Type	
Otte	Birgit	2001	Reynolds	Searching for Additional Heating - (OII) Emission in the Diffuse Ionized Gas of Edge-On Galaxies	
Pisano	Daniel	2001	Wilcots	The Formation and Evolution of Isolated Galaxies	Postdoc, Space Telescope Science Institute
Schweitzer	Andrea	1996	Gallagher	The Absolute Proper Motions, Membership, and Kinematics of Dwarf Spheroidal Galaxies	Postdoc, CSIRO Australia Telescope National Facility, Epping, Australia
Seiwilo	Marta	2006	Churchwell	Hyper HII Regions: A New Evolutionary Phase of Massive Star Formation	Industry: Also heads AAS Employment Committee
Shepherd	Deborah	1996	Churchwell	Bipolar Molecular Outflows in Massive Star Formation Regions	Postdoc, Space Telescope Science Institute
Stassun	Keivan	2000	Mathieu	A Test of Star Formation Theory: The Connection Between Rotation, Accretion, and Circumstellar Disks	Staff scientist at NRAO, Socorro, Mexico
Steffen	Aaron	2004	Barger	A Wide-Field Chandra Survey of the Lockman Hole	Faculty, Fisk University (also at Vanderbilt University)
Tripp	Todd	1997	Savage	The Nature of QSO Absorption Lines: Abundances, Physical Conditions, and Environment	Postdoc, The Pennsylvania State University
Watson	Christopher	2004	Churchwell	Hot Cores and Entrainment in Massive, Bipolar Outflows	Faculty, University of Mass at Amherst
Wehner	Elizabeth	2005	Gallagher	Starburst Galaxies: Stellar Populations, Tidal Debris, and Star Formation Histories	Faculty, Manchester College (Indiana)
Yan	Huirong	2005	Lazarian	Astrophysical Turbulent Magnetic Fields and Their Applications	Postdoc, McMaster College (Ontario)
					Fellow, Canadian Institute for Theoretical Astrophysics
